THE READERS ALWAYS WRITE

Library Campaign

At the recent cat show held by the Golden Gate Cat Club (Oakland, Calif.), there were many people interested in cats who had no source of information except hearsay. In an effort to aid in informing people, I contacted the public libraries in this area and learned they had no magazines on the subject.

I am therefore enclosing check to cover cost of sending CATS MAGAZINE to the Oakland Public Library, 14th and Grove Sts., and the Berkeley Public Library, 2090 Kittredge, Berkeley, Calif.

Dorothy Denning

Hayward, Calif.

Editor's Note—The Publisher will match a year's subscription of CATS with every subscription received from its readers to be sent to a Public Library. Effective immediately the Oakland and the Berkeley Public Libraries will each receive a TWO-YEAR SUBSCRIPTION to CATS. The name of the donors and the Library to receive the gift subscription to CATS will appear each issue henceforth. Let's place CATS in EVERY LIBRARY IN AMERICA (U. S. and Canada).

Pets Unlimited

Through the courtesy of *Outdoor Advertising Association News*, I had the pleasure to learn of an organization which is doing an outstanding job and here is the story. There was an accumulation of 2240 dogs and 1616 cats in the San Francisco city pound recently. By city law those uncalled for by their owners could be disposed of in just two ways; sold at public auction or sent to the gas chamber.

A group of San Francisco women decided to do something and organized Pets Unlimited, Inc., non profit, non political, which provides temporary shelter for strayed or unwanted dogs and cats until permanent homes can be found for them. Placement is made only after investigation, and for 3 months after inspections are made to see that proper care is given.

The remarkable group consists of Baroness Raymond de Tilleghe, chairman; Mrs. Mabel Lewis Wolfe, director; E. E. Williams, public relations representative, San Francisco Branch, Foster & Kleiser; Mrs. Cedric Coldwell, vice president; and Mrs. Graham Steel, treasurer.

Meet Zuleika, Folks

We would like to introduce to you and to the readers of CATS, a delightful, and self-assured young Persian lady of the rarest kind, Zuleika. She has deep blue eyes, white fur with blue points—the Himalayan color. Also called a long haired Siamese. Her parents are jet black, amber eyes, short haired Siamese-Persian. Her grandmothers are seal point Siamese; her grandfathers, black Persians, one of them

being Ayn-to-Wynn's Mysty Rastus, the father of Wilshire Black Pearl who won the All-Eastern black female title in 1947. Zuleika has 40 half-sisters and half brothers of which 33 are black and seven are Himalayan (Siamese color).

Dr. Siegfried Bernfeld

San Francisco, Calif.

Orchids to Denver Club

Recently I cast bread upon the waters and got back cake. I believe this is the first time that has happened. Generally when I cast bread upon the waters, I get back mud pies. I learned through CATS MAGAZINE that a group was putting on a cat show in Denver. I wrote them stating I would donate prizes and enter some cats to help. I selected three cats and sent them by air freight. Not only did my kittens receive perfect care while there but were sent back on the first plane to leave after the show. The Club sent me a paid telegram telling me in detail what my three cats had won and when they would arrive in Minneapolis. Now, as all old cat fanciers will agree with me, we are not used to that kind of treatment. I received cash, credit and eight cups. Never have I received so much for so little. Thanks to a very efficient, considerate and appreciative cat club, the Colorado Cat Fanciers of Denver.

Mrs. T. R. James

Minneapolis, Minn.

Dates of the Cat Fanciers of Washington, D. C. (CFA) have been set for December 11-12, according to an announcement by Mrs. Orville H. Stewart.

More on Rabid Cats

This is in answer to Truman T. Pierson's letter (CATS, Feb. 48) in regard to rabies in cats. I would like to inform him that cats DO come down with rabies. I know because I've seen a cat go through all the stages of furious rabies. Of course rabies in cats is quite uncommon, this being the first case the veterinarian had seen in years. This cat evidently was bitten by a dog that the cat knew, otherwise she would have run from a strange dog. This cat bit a person and was held for 10 days' rabies observation at the veterinarian where I work as an assistant. The head was sent into the state laboratory and the report came back that the head was rabid. The person then took a series of 14 shots.

Any animal or person bitten by a rabid animal can come down with rabies, including cows, horses, rats, cats, dogs and humans.

In 1946, the Bureau of Animal Industry, U. S. Dept. of Agriculture reported 8,384 cases of rabies in dogs and just 455 in cats. There were 10,872 cases all told, including 22 in humans.

If Truman Pierson is still skeptical let him ask any veterinarian or doctor. I'm not saying that cats should have rabies shots. My cat doesn't have and isn't going to, since her chances of getting rabies are so slim that I am not worried. But I did want to point out that cats do get rabies.

Marylynn Dragisic

Benton Harbor, Mich.

At Buffalo's First Show

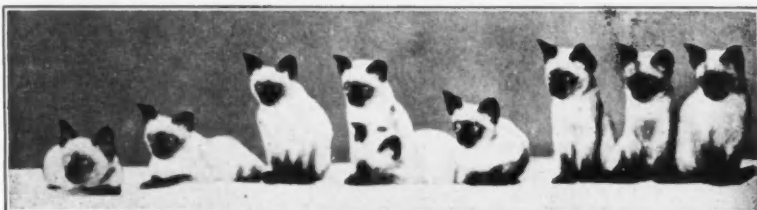

The recent show of the Buffalo Cat Club had its amusing incidents. There was the small boy whose big red half-persian got a first prize and who was very indignant because it did not receive a winner's ribbon and rosette like the only blue cream at the show and the Aby kitten. "Just a lot of darn stingy women. They've got a lot of those rosettes and they're too tight to give me one!" he wailed. "Mine was the only cat of its kind here!"

Then there was the man who enthused over "that beautiful big white cat" a steward was carrying from the judge's stand, followed by "What a fool I am not to know my own cat" when she put the cat in his cage.

But what really amused me was the complaint of a 10-year-old spectator, "So that is what they call a Siamese cat, I thought it was going to be two cats growed together."

Glen E. Carman

NATIONAL CAT WEEK IS NOVEMBER 7-13

The 1948 dates for National Cat Week are November 7 through November 13.

The announcement was made by John C. Newton of Columbus, Ohio, national chairman of the event, following the annual meeting of the executive committee at Columbus, Ohio, January 25.

Many cat clubs, planning to stage shows during the octave have held up dates of their exhibitions, awaiting the official announcement of the event.

Other officers elected or reelected to the national executive committee include Miss Kay M. Thoma, vice chairman; C. Wright Richell, secretary; Mrs. C. W. Fould, treasurer; William C. Bryant, attorney; and John H. Knapp, veterinarian. Mr. Richell will again handle the position of art director.

Directors of the board include C. W. Richell, Kay M. Thoma, Mrs. W. B. Menie, Mrs. D. H. Wyatt, Mrs. C. W. Fould, Mrs. Ellen Teachout and Mrs. Dorothy F. Thompson.

It was announced that Mrs. Orville H. Stewart of Washington, D. C. was elected Eastern Vice Chairman. Mrs. R. H. Hecht of Normandy Mo. was elected Central Vice Chairman. The office of Western Vice Chairman was not filled, but will be taken up at the next meeting of the Board of Directors.

The name of the Honorary National Chairman will be announced later. Last year Bascom N. Timmons, prominent Washington newspaper correspondent, headed the event. It was the first year that organized catdom responded. Special programs were arranged with a number of broadcasting stations joining in the celebration.

Special posters were designed and distributed throughout the country along with well-presented literature, featuring among other pieces, a folder titled, *Nine Lives*, with short articles by outstanding authorities including Ida M. Mellen and Eleanor Booth Simmons.

Thousands of seals were sold to cat lovers at one cent each, the proceeds used to purchase posters and other literature. Since the seals prove to be the only source of funds other than specific donations made by anonymous persons, it is expected they again will be placed on sale.

National Cat Week was founded in

U. S. GOVERNMENT RECOGNIZES NCW IN NEW BOOKLET

National Cat Week, has been officially recognized by the United States Government, in the alphabetical and the calendarial lists of the booklet published by the U. S. Department of Commerce, Washington, D. C. may be considered as such.

The following details for Cat Week are presented:

"National Cat Week, November 7-13. Sponsor, National Cat Week, Inc., John C. Newton, National Chairman, 1980 Indianola Avenue, Columbus 1, Ohio. Purpose: To promote appreciation, understanding, better care, and treatment of all cats; and to raise the standard of cats in the eyes of the public."

A copy of the booklet, titled *Special Days, Weeks and Months in 1948* (24 pages) may be obtained by sending 10 cents in coin to Inquiry and Reference Section, U. S. Department of Commerce, Washington 25, D. C., and requesting this pamphlet by title.

February 1945 by Charles A. Kenny, publisher of *CATS MAGAZINE*. In June of that year he was recalled to active duty by the United States Army. Mr. John C. Newton, present national chairman, carried on the campaign. The event was founded as a non-profit organization and free from all commercial alliances. The entire NCW committee serves without salary or any remuneration. Upon his return from the service Mr. Kenny resigned all connections with National Cat Week. National Cat Week was incorporated under the laws of the State of Ohio on April 2, 1947.

Cat owners and cat lovers, desiring to further the humane educational program of NCW are urged to contact National Cat Week, Inc., 1980 Indianola Avenue, Columbus 1, Ohio. Contributions of One Dollar or more will enroll those interested for 1948, and in return membership will include a generous supply of the 1948 seals to be sent when ready.

Fifty-three cats have won title of 1948 All-Midwestern in their respective division, classification and sex. The total is ten more than last year, with Domestic Short Hair stock landing 12 places, seven more than in 1947. The rankings do not include the Milwaukee CFF and the New Orleans ACA exhibitions, but it is doubtful if changes will result in the 1948 lineup.

Twenty-nine long hair show specimens are ranked, one less than last year, when two Tortoiseshells tied for identical point totals. Seven Foreign Short Hairs are honored as compared with six last season, while the Manx division accounted for five, one more than last year.

Fifteen of the 1948 All-Midwesterners retained their titles of last year of which four are 1947 All-American performers. Thirteen on the 1947 AM list later placed on the All-America. Thus the turnover in the AA titles appears to be headed for a landslide. The Red Tabby Male, Ch. Kerry Lu Marigold of Vee Roi on the 1948 AM list, captured an All-Western title last season.

Mrs. R. H. Hecht of Normandy, Mo., tops the breeders with eight title-holders, sweeping the Siamese section and adding four others in the Domestic Short Hair group. In addition, Mrs. Hecht's Dbl. Ch. Vee Roi's Katisha, a Seal Point Female, rolled up the high point score, while Ch. Chally Blue Boy, Blue Male owned by Mrs. Walter C. Meyer of Grosse Pointe Park, Mich., was second high. These two high-pointers were listed last year. The Meyer entry was runner-up to Dbl. Ch. Lantara Gene, Blue Point Siamese, owned by Mr. Hecht, which won 1947 All-American honors. Chally Blue Boy was toppled by the All-West entry, Ch. Wimauma Masterpiece of Chalsu, for All-American Blue Male honors in the finals. Masterpiece likewise captured All-American Cat of the Year award.

The All-Midwestern sectional honors are based entirely on the performances of cats in the show rings. A mathematical point system has been applied to the results of the 1947-48 exhibitions. Every cat in competition is ranked. The ratings therefore are neither the personal choices of *CATS* nor the members of the All-American Board. The results of each show must be accurate before listings are made.

CATS AND AFRICA

To Miss J. P. Deeble of Pinetown, Natal, goes the distinction of carrying the torch for the tremendous interest that is being shown cats in the Union of South Africa. In 1946 Miss Deeble called a meeting of known cat lovers and launched the South Africa Cat Union, which covers the Union of South Africa and the Rhodesias as well. The group has become affiliated with the Governing Council of the Cat Fancy in England and thereby is closely tied with the best known cat clubs in England.

President of the federation of cat clubs is Dr. P. R. B. Smith, considered the outstanding veterinarian in South Africa, and a graduate of the Veterinary College of Cornell University at Ithaca, N. Y.

Chief interest in the S.A.C.U. and its growth appears to be among the Siamese owners who are said to have imported some of the outstanding strains from England. However, it is pointed out that, with the exception of the neutered cats, the weights of the Siamese do not come up to the English standard.

The raising and breeding of fine cats in South Africa are handicapped by the tendency of kittens to be stricken with paralysis in their back lags. Considerable care must be exercised to ward off constipation. Veterinarians in the country however, attribute much paralysis to inbreeding. Miss Deeble, herself has had considerable success with the use of enemas of sweet oil and soap. "In addition to this

BRIGHT SHOTS ON DARK CONTINENT—Miss J. P. Deeble, secretary of the South African Cat Union, Pinetown, Natal, South Africa, with her young Siamese queen, Tiensin of Holme-Lacy. Tiensin's parents are direct from Siam. (Lower left) Native servant-boy exhibits Tiddlywinks, white Persian and Dusty II, Siamese, owned by Mr. L. C. E. Collingwood, Melfort, Southern Rhodesia.

method," she writes, "I give every cat and kitten of mine a teaspoon of cod liver oil every day, and since I started this procedure, have had very few cases of paralysis."

Miss Deeble also writes, "We are fortunate in not having distemper in Natal nor in many parts of the Union, but during the summer months, tick fever is very prevalent, and strange though it may be, contagious with cats but not with dogs. A cat cannot give it to a dog or

vice versa. The greatest mortality among cats in this country is due to people's ignorance of this disease and lack of isolation—also jumping to the conclusion that it is distemper. Tick fever in this country acquired by both dogs and cats resembles on inspection a like type of distemper that is a mucous membrane discharge."

Miss Deeble in addition to her duties as secretary of the S.A.C.U., breeds Siamese.

ACA Meeting Set for Chicago

The annual meeting of the American Cat Association was scheduled for Thursday, March 25 at 410 S. Michigan Avenue, Chicago, Ill., according to an announcement by Mrs. Stanley Gibson, secretary-treasurer.

The meeting was set for 2 o'clock.

Following the meeting, a dinner will be served, and an ABC Forum scheduled for the evening program.

THE NEW LOOK

The New Look is a serious debate among New York City pussy cats. It all happened at the Atlantic Cat Show in January. First, Princess Mickey, shown at right, the household pet of Joseph A. Olano, entered the show complete with several unusual dresses and seven chic hats that should give Lily Dache sleepless nights. The Princess had an extensive wardrobe including a house dress, a ballet dress, two sweaters, a chamois windbreaker, seven hats and a rhinestone tiara. She looked quite modish however in her dress made from a lace curtain. (Acme Photo)

Tomcat Stops Mail Train, But Loses 9 Lives Doing It

On February 14, the Spokane, Wash.-bound mail train was held up for nearly an hour by a tomcat, who spent all his nine lives doing it.

With No. 27 due, the switch operator punched the button, but the block signal remained red. The mail train ground to a halt, according to the A.P. dispatch, and the search began. Forty-five minutes later searchers found the dead tomcat lodged between the rail and the switch point.

HOW TO MAKE YOUR CAT HAPPY

There exists no greater comfort to the quiet mind than a contented cat. The animal lover naturally wishes all of his pets to be happy, but there is only one way to accomplish it, whether he is dealing with a snail, a fish, a baby alligator, a turtle, a parrot, a monkey, a dog or a cat: he must put himself in its place!

Food: Often there is food on the table which is not offered the cat but which would make it very happy. Like ourselves, cats have different tastes. Some love cheese, others will not touch it. Some will not eat an egg plain but gladly take it if combined with milk, raw or cooked. Cats are not wholly carnivorous, and while meat and fish provide their main fare, they are fond of vegetables also. Try your cat with various kinds until you learn which it favors. Most cats enjoy string beans, lentils, mushrooms, corn and asparagus. Many like fruit, especially cantaloupe, and will also drink fruit juices.

Name tag: Cats are investigating animals and like to wander and appraise the surrounding country. Quite often they get lost, or are frightened and run so far from home that they cannot find their way back. It is a mistake to suppose that every cat possesses the homing instinct. A local SPCA now holds in a cage a beautiful big cat with a fine collar, but the collar bears no name and address and this cat, though obviously yearning for his home, must be destroyed unless it occurs to the owner to look for him at the SPCA.

Cats in England wear collars (either of leather or elastic) with name tags. The tags have a wire ring through which the collar passes. They are of soft metal, circular and the size of a cent, and bear the owner's name and address. American name tags are one-and-a-quarter-inch ovals of brass, with metal loop for attachment. A cat that is worth having is worth saving and should wear a name tag.

Some cat owners fear a leather collar, lest it hang the cat on a picket fence. Elastic collars in such cases would pull off, are more comfortable in hot or wet weather, and if run through sliding buckles—two small pieces of metal, each having two slits—they can be adjusted to fit exactly.

Bed: Cats are not always provided with comfortable beds. They prefer something over their heads, a shelf under a shelf, for example, with a newspaper or cushion, but will accept almost any bed in a dry, elevated spot protected from drafty floors. They are proprietary animals and things they can regard as their very own, such as toys, napping places and cushions, make them happy.

Veterinarian: Any animal in our keeping should be accorded the same care that we accord a child, and its doctor, like our own,

OR, IF HAPPY, HAPPIER

By Ida M. Mellen

selected in advance of illness. A cat deserves a competent veterinarian and it is worth spending time finding the exceptional one who likes cats and therefore knows something about them. Better ask the nearest large-scale breeders what veterinarian they have found competent to administer an anesthetic without killing the cat. A vet. who knows how to do that

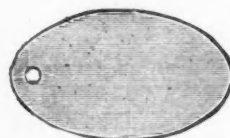

should be very generally successful with cats.

Cat door: Probably the happiest of all cats are those that are provided with a cat door: A little swinging door cut in one of the house doors, which permits them to come and go at pleasure. Most of us have heard the story of the celebrated mathematician (Newton?) who, in his eagerness to accommodate his pets, cut a big door for his big cat and a little one for his little cat!

If you will put yourself in your cat's place and figure what would make you happy if you were a small animal called a feline, that travels on four legs and is grateful for all favors, you can create a very happy cat.

CHOW-HOUND!—"Bring on the soup!" That is what Bitsy, silver Persian male, owned by Mrs. Victoria F. Stewart of St. Louis, Mo., is commanding. Bitsy Ching Wunderle has been trained to his feeding in his own highchair by his mistress.

CAT TAGS

Protect your cat with **CAT TAG**. Made of BRASS, with your name and address and phone stamped into the metal. Can't wear off. Complete with attaching link, only 50 cents each, 3 for \$1.00. Foreign orders welcome.

CAT TAILS

by Billie Bancroft

The rule on Cats seems to be that you either love them or loath them, but no matter where you stand on the subject you will have impressive company. The question of Cats causes more people to get fighting mad than almost any other harmless topic you could name. Someone the other day told me that men hated Cats. Phooey—!!—as a matter of fact the Cat Fancy was founded and established in this country by the most rugged men of colonial days,

GONE—Ch. Burnadette of Ching Ming Tai (Imp.), one of West Coast's outstanding seal point siamese, owned by Mr. and Mrs. Edward Walter of San Francisco, died recently at the age of 19 years. He had been imported at the age of three months, and his pedigree is highly prized by all breeders. He was affectionately known as Bandit and received fan mail from all over the United States.

Jenkins and Cat Freed In Tippy Driving Case

According to a U.P. dispatch from Hollywood, Movie Actor Allen Jenkins and his cat, Smiley, were cleared of drunken driving charges, at their hearing in mid-February. On January 26, Jenkins told police who arrested him that Smiley was doing the driving, and he, Jenkins, was just along for the ride.

"This is a great relief to Smiley," Jenkins said upon his release. "He was upset about us being lawbreakers. I don't want him to have a police record."

The London A.P. Bureau reports that a shilling a week is provided to feed cats which catch rodents in British Government offices.

the seafaring New Englanders who brought them to these shores from every port they touched. (Page Captain Amos H—). I am betting you every blue-eyed heart breaker I have—(Persians) that you will not find a ship sailing from any port we have, from tramp steamers to palatial liners, without one to a dozen cats aboard!

It is easier to appreciate a cat's personality if you realize that it is really a miniature lion—and don't think for one minute its pride, dignity and stateliness suffer from the reduction in size. I have always felt the highest tribute a cat ever paid me was to treat me as an equal—and don't think for one minute you own a cat—that my friend is one hundred per cent piffle—the cat owns you.

At the New York City Hall, the official custodian, (I'm going by the inscription on his collar), is called *Tammany*. *Tammany* does not deign to ask for attention, he commands it and gets it from office boy to mayor—maybe he has no key to the city but the man who has the key is his best friend!

I no sooner got the above words out of my typewriter when I received a long—

Amazing Relief for TORTURED Dogs and Cats

SKIN ITCH: Don't be too quick to blame fleas, mange, diet, if pets itch—scratch continually. 2 to 1 it's "FUNGITCH," fungus infection discovered by noted veterinarian, Dr. A. C. Merrick. Much like athlete's foot, it itches painfully—soon develops dandruff-like scales or mouldy-smelling brownish-edged sores around tail, on paws, back or underbody. Dr. Merrick's SULFODENE applied externally stops the itching in minutes—clears up scales and sores in a few days. Generous treatment \$1.00 in stores or order direct—address below

EAR CANKER: If pet repeatedly rubs ear on floor, etc., shakes head or holds it in a stiff, unnatural way, examine ears carefully. If hot—sensitive—musty-smelling, you know it's ear canker (otitis). Apply Dr. Merrick's EAR CANKER Creme at once. Simply squeeze Creme from handy metal tube into the affected ear. Creme contains wonder-drug Tyrothricin. Works swiftly to relieve pain, remove causes and promote healing of ear canker. Don't let your pet suffer another day. Only \$1.00 per tube at stores or order direct from BROOKFIELD LABORATORIES, Dept. D268 BROOKFIELD, ILL.

Death of Blue Persian Enriches Church by \$5,000

When 15-year-old Herman, a blue persian, died last August, the Mt. Washington Presbyterian Church in Pittsburgh, Pa., was enriched by \$5,000.

Herman would have been a cat of considerable property if he had outlived his mistress, Mrs. Ellen H. Smith. However, Mrs. Smith died in January, but had made her will in June, bequeathing the \$5,000 to the Fidelity Trust Company to take care of Herman's every want for life.

With Herman's death, the money reverted to the church along with most of the remainder of Mrs. Smith's estate. Neighbors said that Mrs. Smith and the cat had lived alone since the death of her husband five years ago, followed a few weeks later by her mother. Herman had been a great favorite of Mrs. Smith's mother.

Herman, in his lifetime, was no stranger to the luxuries that the \$5,000 could have brought. Friends of Mrs. Smith said that he had "nothing but the best."

Common EYE AILMENTS OF THE CAT

By L. H. Fairchild, M.D.

The normal cat's eye is a remarkable structure. One can learn much about the natural resistance of the feline eye to injury by studying the eye of the cat.

If you will look at your cat closely, you will note that as it closes the eyes there is a thin but powerfully tough membrane which makes an inner eye lid and which moves across the eye, shielding it from possible injury. This inner eye lid is called "haw" or nictating membrane, and its chief function is to protect the eye against injury and to remove small particles of dust or hair that might get into the eye.

When the cat has any "off" condition, such as a cold or is infected with worms, or has upset stomach and bowel or almost any other sickness, one will often find this membrane partially covering the eye. Return to normal health is often associated with the disappearance of the "haw" from over the eye. The cat sometimes persists in keeping this membrane over a portion of the eye and in rare instances the only way one can rid the condition is to remove the membrane by surgical means.

A common eye condition which many cat owners will find in their kittens is called "sticky eyes." It is seen in nursing kittens quite often. Not all kittens will respond to the same remedy, but we have found a daily wash with boric acid solution applied to the lids with moistened cotton pledgets, a good measure. The solution is made with warm water, saturated solution, or, in other words, as much boric acid as will dissolve in a cup of warm water. Follow this by applying a drop of cod liver oil from a medicine dropper in each eye. Gently spread the eye lids a little and drop the oil in the eye. This "sticky eye" is usually not due to any acute infection, and will often respond to this simple treatment.

One of the most troublesome eye ailments is an inflammation of the eye lids and of the cornea due to secondary infection following colds and/or distemper. One can best care for these by use of a daily wash with warm boric acid solution, wiping away the discharge by means of moistened cotton pledgets. NEVER USE DRY COTTON TO WIPE THE EYE! Follow this procedure with 1 or 2 % yellow oxide of mercury ointment applied to the inner lids by means of a small tube and applicator, that may be purchased at any

drug store. This can be used once or twice a day.

A 10% solution of argyrol has also been found very helpful in these cases. We have discovered that in some instances penicillin eye ointment is the only medication that will clear up such a condition. It is sold in a small, easy-to-apply tube. Perhaps your family physician will give you the prescription for this medicine although in some states it may be purchased directly from the drug store without a prescription. Keep the tube in the refrigerator between doses. Early treatment is most essential. Delay may mean a chronic "watery eye" that the cat may carry for the rest of its life.

Cats that wander among weeds sometimes get foreign bodies in the eye, the worst of which are barley beards or fox tail. This thorn-like plant may adhere so closely that it will be very difficult to remove. Unless one has a special pain-relieving drug, it will be impossible to stop the pain in the cat's eye to enable you to remove the barb. If you are unable to contact a veterinary to obtain aid, relief from the pain may be had by the use of butyn and metaphen eye ointment. This can be applied between the eye lids and over the eye ball. The pain relief is quick and lasts for an hour or longer. Applications of this ointment may be repeated as needed. Butyn and metaphen eye ointment is ordinarily sold only on prescription, but here again, your family doctor will probably be able to help you. It is a very fine preparation to have on hand in an emergency. It is also an excellent medicine for treatment of scratches of the eye.

Whenever possible get the veterinarian's help when a foreign body is not easily removed. To delay may mean loss of the eye or permanent scarring. Once the pain is relieved by means of the ointment one may more easily remove the foreign body, however, sometimes it is necessary for the cat to have a general anesthetic.

In this article we have endeavored to give some effective home care for the ordinary and more common eye conditions. When a competent veterinarian is close at hand you will be wise to engage his help. However, many of our readers live far from veterinary aid. The medications suggested here may be procured at the drug store in any part of the United States.

IN THE ROCKIES—Above is pictured the Colorado Cat Fanciers (CFA), who organized within a year and staged a highly-successful show six months later. Among those pictured are: Mrs. H. E. Lyndes, Mrs. Frank Spillers, Mrs. D. A. Rittenhouse, Mrs. John Davidson, v.p.; Mrs. H. L. Driscoll, president; Mrs. W. R. McDougall, v.p.; Mrs. W. J. Bain, sec'y.; Mrs. E. M. Campbell and Mr. D. A. Rittenhouse, 1st v.p. Mr. W. J. Bain, Mrs. J. R. Kringel, Mr. Leo Arnoldy, Mr. H. L. Driscoll, an unidentified member, Mrs. M. P. Belcik, Mrs. LeRoy Watt, Mr. J. R. Kringel and Mrs. Leo Arnoldy.

BUSTER IS SOME CAT

(Pictured on Cover)

One of America's most unusual cats is Buster, the neuter, who is pictured on the front cover. Buster who is classed as a household pet is the companion of Mrs. Dorothy Lewis of Lackawanna, N. Y.

A longhair orange-eye white, Buster possesses a black tail that makes the appearance of this cat quite striking.

Buster hails from Canton, Ohio, and was born 18 months ago, one of a litter of three. The sire was an orange-eye white long hair and the dam a brown tabby long hair.

But that isn't all. Buster has a peculiar penchant for unusual foods. Glazed doughnuts and coffee are "tops." If Mr. Lewis decides on a highball or a bottle of beer, Buster must have some too. There will be plenty of trouble if Buster is passed up.

When Mrs. Lewis has friends in for bridge and serves a light snack with ice

cream and cake, Buster passes up the sandwiches for the dessert. Buster is an odd one when it comes to ice cream. It must be chocolate! So you can rest assured that if ice cream is served in the Lewis household, it will be chocolate!

Buster showed off for the first time in public at the Buffalo Cat Club show. He attracted considerable attention at the City's first exhibition in many years. This unusual cat with his cast-iron stomach presents an unusual spectacle with its soft luxurious white coat and its contrasting plume-like tail.

Yes, you ought to see Buster in the flesh!

MY LIGHT

As black as night, one of a "stack of black cats,"

But every hair is pure gold threads to me;
His presence lightens my burdens, my home
With inner light that only I can see.

CAT TAILS

(Continued from Page 9)

distance call from Boston—a voice said—"I want to talk to Bancroft Billie"—(makes me sound like a two-gun character from a western thriller), "right here," I replied. "You write Cat Tails," the voice asked—"Yes—" from me. "Well, I called to tell you about Sooke—he's smart—that cat—his color is of reech eggnog—without the nudmeg"—(Now whoever would want eggnog without nutmeg—?) "O. K., Mr. Vreeche, so he is a deep cream and you call him SUGAR, what else—?" "Hah—you spick French?" "No, I just understand a few conversational words," is my reply. "Well—this Sooke—he sits on the table by my chair—while I read the Record—maybe—I go to sleep—Sooke—he climb over into my lap—kick the paper down—then reach up and take my glasses off—drags them over to the coffee table—very gently—places them on one corner—comes back and goes to sleep in my lap. Smart—eh?" "Very clever, Mr. Vreeche, you are quite sure about Sooke taking the

glasses over to the coffee table—?" "Very sure—my wife she watch him—same corner every time. (This is followed by an indignant snort from the other end of the wire), on my word as a gentleman and scholar—it is absolutely true!" (I have later been informed by a letter from Madame Vreeche that she and the professor have been in this country three years. *Sucre* came with them.)

Down in Danville, Virginia, lives a very interesting little lady who owns the Kittenholm Cattery. I refer to Mrs. B. F. Clark. From her letter I would say that she considers her cats as members of her family. Each one of them being treated with love and understanding. Mrs. Clark has one red Persian queen that I consider unusually clever. She is the pet of the family and spoiled accordingly. When the first litter of this red queen were expected—around the last of July—Mrs. Clark would gather Madame into her arms and whisper to her a secret—"please—please Madame—have your babies on the second of August for that is my birthday"—Soo-o-o-h, on the second of August, six-thirty in the morning—Mrs. Clark's birthday

presents arrived. Four of them. Madame Red insisted on Mrs. Clark staying with her ALL the time. Finally it was decided to make a bed for the new family in the bathroom adjoining Mrs. Clark's bedroom—a little after midnight on their first night in the bathroom, Mrs. Clark awakened to find Madame Red walking across the foot of her bed with one of her babies in her mouth. On investigating, Mrs. Clark found the other three babies in a neat little pile just behind her. Madame purred and rubbed her face against Mrs. Clark and jumped down from the bed with an odd chirruping chuckle—there was an inscrutable expression on her face as she left the room, waving her plume in stylized grace. Madame Red headed direct to the living room and selected her favorite easy chair. This went on—until the babies were old enough to choose their own quarters. Mrs. Clark measured up to the expectation of Madame Red, four times—taking her responsibility seriously.

Thank you for your many letters, give me time and I'll answer each of them—and probably use most of them in this column.

THE Breeders' Digest

LILLIAN D. LIMPERT
RD 3, BOX 96
MENTOR, OHIO

A group of Norfolk Cat Fanciers' Members attended the Empire show and were most pleased with their wins writes Mrs. Harry Day. "Day's Own Missi Wan" finished first in Seal Point Novice, later winning Best Siamese Novice and Best Opp. Sex Novice. Mrs. C. E. Voke's little Blue Point "Rosebank Chrysanta Royalist" won the blue ribbon in the Blue Point female Novice class and a second in the open. She is sired by Rosebank Kwentung of Valhalla ex Nan Ting Rosebank.

Mrs. Ina Morris of Los Angeles, is much enthused with her purchase of a very good cream female, Nadja of Seven Gables is sired by Ch. Lavender Victory. Her dam is Lavender Lassie. Lavender Chamois, her grandsire was featured in *National Geographic* in 1938. Nadja was Best Kitten of show last year and continues to develop beautifully.

Mrs. Robert Brown of Chicago has added two black female kittens in the past few months. Polly, bred by Mrs. H. O. Simble is a daughter of Nigrette's Baby Coon of Fernwood, by Fernwood Yankee Boy of Craighead. Nigrette's Patricia's dam is Barbe Bleue Samantha and she is sired by Barbe Bleue Fibber. There is also a new blue kitten sired by Ch. Fernwood's Blue Toddy Bear ex Fernwood's Chickadee.

At the Lake Erie Cat Club show held in Akron, Ohio in January, important transactions, involving sales of Bests in show, transpired. The sensational winner of Best Kitten, White Lawn's Gingerette went home with new owner, Mr. Charles McGrew of Cleveland. Mrs. J. J. Mayer of Merztown, Pa. purchased her parents, White Lawn's Sir Buff and White Lawn's Ivory of Rollingwood. Sir Buff, who was selected as best cream in show, is a son of Ivory. He is sired by White Lawn's Prince Charming, a blue.

Since Mrs. Mayer plans to specialize in silvers, too, she has purchased Glen Echo Bragabout of Go-Seek-Us, also Rose-dere Dream of Rosecrest, his mother, from

Mrs. T. Moloney. Havencrest Bambee Crest promising chinchilla male is also a newcomer. Another best chinchilla Novice in Canadian show, Mignon of Go-Seek-Us, a pale chinchilla with sea green eyes was purchased from Mrs. J. Thompson of Toledo, Ohio. She has been bred to Ch. Silver Meteor of Chewanna and good results are anticipated from this combination.

Mr. and Mrs. William Oelschlager of Croydon, Pa., have chosen "Meadowmist" as the appealing title of their cattery registration. They plan to specialize in solid colors. Among the purchases from Mrs. J. J. Mayer are a blue son and daughter of the late Ch. Delmar Paul of Allington (Imp.), namely Kute Kit Just Paul of Go-Seek-Us and Blue Melody of Go-Seek-Us. Also there is Butch of Nev-Duneten, whose cream son was named All-Southern Cream in last year's sweepstakes. Dianne of Nev-Duneten, Best Opp. Sex Black at Springfield show and Vangerine of Go-Seek-Us were also added. Welcome to our fold, Mrs. Oelschlager!

It was with heavy heart that Miss Delle D. Smith reported the passing of her beloved black female, Savante of Khyber who would have been sixteen years of age in March. She was a color bred daughter of Waneta Aida of Khyber and Ch. S.E.A. combined with Basildon Inky Boy; they were the source of Miss Smith's line of very fine blacks. Fortunately there remains a daughter, Pamela who was from their last litter. She is the mother of the male, Khyber's Black O'Boy now owned by Mrs. Warfel Smith.

Mrs. L. Pelton's black female, Ebonetta

PERSIANS

BLUES & BLACKS by Chesterfield Ahazuerus (Gr. Ch. Woodchurch Periwinkle & Collette ex Kansas City Ebony Girl & Chu Mischief of White Birch). Also Blue & Black stud services.

OBITUARIES

Mrs. Maggie Shelley

Mrs. Maggie Shelley of Elmsdale, Kansas, breeder of whites, blues and silver, and operator of the Blue Heaven Cattery, died on December 20 at the All Saints Hospital, Fort Worth, Texas. She was interred at the Cottonwood Falls Cemetery there, December 26. Lady Kirby of Blue Heaven, mother of the white female, Jo-Em-Ette of Blue Heaven was her special pet and comfort in recent years. Mrs. Shelley had been in poor health for some time.

Miss Emma C. Payne

Miss Emma C. Payne, 62, well known breeder of pedigree cats, and owner of the famed Rosedere Cattery, died at her home at Falls Church, Va., Dec. 15. For 17 years she operated Rosedere and exhibited her cats all over the world. She was honorary president of the Cat Fanciers of Washington (CFA).

Miss Payne was born and educated in Georgetown, Washington, D. C. and was once a private translator and tutor for diplomatic families. While attending the World's Fair in San Francisco in 1915, she was given a brown kitten named Friskie which had been on exhibit. It was with this gift that she started Rosedere Cattery in Washington, and later moving to nearby Virginia.

She is survived by her brother Major George Alton Payne, and Miss Dorothy C. Hunt, a close friend and well known CFA judge who resided with her.

IF YOU MOVE—

Please notify CATS immediately if you change address 30 days before you move to insure prompt receipt of next month's issue. The Post Office does not forward magazines to new addresses and CATS cannot send a duplicate copy. If you send us the label from last issue, it will help.

Gallon, \$8.50

CH. TRANSMERE TWINKLETOES

1945—Best Tortoiseshell, Empire

1946-47—Best Tortoiseshell, Garden State and Norfolk, Virginia.

1948—Best Tortoiseshell, Washington Cat Fanciers, D.C.

ANOTHER LABCO BOOSTER

"It is easy for me to sing Labco praises because I never do a thing for my cats but a Labco shampoo and a light going over with Labco Dry-Clean Lotion to remove all dust. Their coats glisten with a clean iridescence that brings out their lovely color and markings. I have also found that using Labco Pet Shampoo will leave any cat in benching condition. This is a real short-cut in the life of a busy breeder," writes Mrs. Miriam B. Transue, of Transmere Cattery, 352½ High Street, Hanover, Pa.
